Dear Kevin

I am not sure if you should be receiving this note, but if you are not then I am sure you will pass it on to the pertinent person.

In the last six months or so I have had the opportunity to deal with Ivan and Derrick from your company. I must say that it was an extreme pleasure to deal with these gentlemen. In a day where customer services is such a high expectation; Ivan and Derrick were very customer oriented, professional and helpful. I also had the opportunity to deal with some of the girls in the office and again the professionalism, and customer service was excellent.

People are so quick to tell you the bad things in today's world, that no one takes the time anymore to tell you the good things. Main Air will always be the first company I call when in need.

Please tell everyone, job well done. Keep up the great work.

Sincerely,
Syncron Technologies Limited
